Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Restriction

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 21-64, drawn to a soldering flux.

Group II, claim(s) 65-69, drawn to a soldering method.

The special technical feature of Group I is the adhesive resin and hardening agent, as recited in Claim 21. The forgoing special technical feature is shown in the prior art of Pennisi (US 5,128,746) in col. 3, ll. 5-35. Therefore, there is no contribution made over the prior art, hence there is no unity of invention and lack of unity is held by the Examiner.

IF APPLICANT ELECTS GROUP I, THEN APPLICANT MUST ADDITIONALLY

ELECT ONE OF THE FOLLOWING:

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Ia. Claims 26-29, 33-36, 43-46, 52-55, and 61-64 are drawn to the carboxylic acid.

Ib. Claims 24-25, 31-32, 41-42, 50, 51, and 59-60 are drawn to the thermosetting resin.

Art Unit: 1725

Ic. Claim 37 is drawn to the solder powder.

The following claim(s) are generic: 21-23, 30, 38-40, 47-49, and 56-58

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The special technical feature of Group I is the adhesive resin and hardening agent, as recited in Claim 21. The forgoing special technical feature is shown in the prior art of Pennisi (US 5,128,746) in col. 3, ll. 5-35. Therefore, there is no contribution made over the prior art, hence there is no unity of invention and lack of unity is held by the Examiner.

Election

A telephone call was made to Surinder Sachar on 3-12-04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
